The secret to success is practicing **little** and **often**. Can you practice this KIRF whilst walking to school or during a car journey? You do not need to practice all aspects of the KIRF all at

Practical ideas and resources:

*Use what you already know – If your child knows that 2 x 5 = 10, they can use this fact to work out that

2 x 6 = 12

* Chant together, quick fire recall and testing each other.

* Songs and games are a great way to help children learn their tables, try the links below:
